

NOVEMBER 2020

3rd November 2020 - 1013 campaign

Vegetarian Safe Environment & 1013 Initiatives – Dr Lee Ching Hoe

The population is set to rise to over 9 billion by 2050¹, we are consuming the planet's natural resources faster than the Earth can replenish them. By 2050 we'll need the equivalent of three planets resources to meet our current needs.

With the support of Buddhist Tzu Chi Merits Society Penang, Ygi joined the “1013 Campaign – Everyone Transpires Loving Heart”. The employees of Ygi regardless of race and religion, opened their hearts to donate online for a good deed.

The key components of SMART Warehouse Management System which allow management to have full control and visibility to support efficient operations. They are:

- Barcode / RFID tag for data collection
- System integration especially with the existing ERP
- Big data analytics to analyze inventory values and movement for optimum results
- Real time alert on abnormality
- Material tracking and traceability
- Streamline existing process through necessary automation

For efficient and quick deliveries of products, warehouse management systems should be efficient with zero scope of errors. The proliferation of the Internet of Things (IoT) is changing the picture of warehouse management at a fast pace. Using IoT devices like RFID tags and sensors enables warehouse managers to keep track of the exact location and progress of the product. Let's explore how IoT enabled warehouses are radically improving the operational efficiency of their supply chain.

JOM GO: A three-hour hike up Penang Hill and descending by funicular train

An enjoyable Penang Hiking Trails from our Yglians. It took us three hours to hike up Penang Hill. On the top, the Sky Walk and Viewing Decks offer a spectacular 180 degrees view of George Town.

We had a sumptuous breakfast and coffee at Kopi Hutan before we end our trip.

30 November 2020

Christmas Decoration at the Office

Many workplaces embrace the festive season as an opportunity to inject a little Christmas cheer into the working environment, even if not all their employees celebrate the holiday.

1. Employees are encouraged to work as a team
2. Morale will get a lift
3. The office environment will be reinvigorated
4. It's a chance to show your human side

Having a bit of fun at work is also important for the employer brand; to post pictures of your decorated office on your social media channels, so prospective applicants can gain an insight into your organisational culture.
