

YglWORLD

HAPPY CHINESE NEW YEAR!

**GOOD LUCK AND
GREAT HAPPINESS**

THIS YEAR IS YOUR YEAR!

A new year's greeting from the Management

POWERED BY YGLWORLD

ERP FOR MANUFACTURING INDUSTRY 4.0

What is YGL Beyond ERP Industry 4.0 Suite (ERP software) and how can it benefit your organisation?

What's Included in Ygl BeyondERP Suite?

Core functions:

- Financial Accounting Management
- Distribution Management
- Product lifecycle management
- Supply chain management software
- Purchasing Management
- Fixed Asset Management
- Plant Maintenance
- Smart Manufacturing4.0
- Smart Warehouse4.0
- Distribution
- Warehouse Management System

Benefits of ERP

- integrated business processes
- one central database with no duplication of data
- a single 'view of the truth'
- easy-to-use, powerful reporting across the whole suite (and therefore the whole organisation)
- the same look-and-feel across the whole system, making training and using the ERP very straightforward.

Jalan Pinang 50450
Kuala Lumpur

Purchase Management handles company purchase orders and at the same time traces vendor performance. Detailed line items indicate planned receipts to inventory or to a job, although their destination may be changed at the time of actual receipt entry. Purchase order receipt processing updates suggested vendor and detailed purchase history files, which provides continual reference to aid in making purchasing decisions. An online Time-phased Material Requirements Report provides a strategic planning tool to buy the right amount of material—at the right time.

With Purchase Management, you can reduce inventory levels, improve on-time deliveries, enhance your cash flow and increase your profit levels.
