

YGL's participation in the Malaysia International Trade Fair on Intralogistics & Supply Chain Management (MALT) and SMART FACTORY Malaysia's International Trade Fair on Digital Transformation & Factory Automation 2023 at Penang Spice Arena from November 8 to 10, 2023.

YGL showcased Smart Manufacturing, Smart Warehouse, ESG solutions, AI Vision, Solar Panels, and Logistic Industry 4.0 solutions at the event. YGL's presence at the expo highlights their expertise in Industry 4.0 technologies and their commitment to providing innovative solutions for customers.

The Small and Medium Enterprises Association (SAMENTA) Malaysia Northern Region explored the offerings at the YglWORLD booth (J-24) and the MPC booth (J-38).

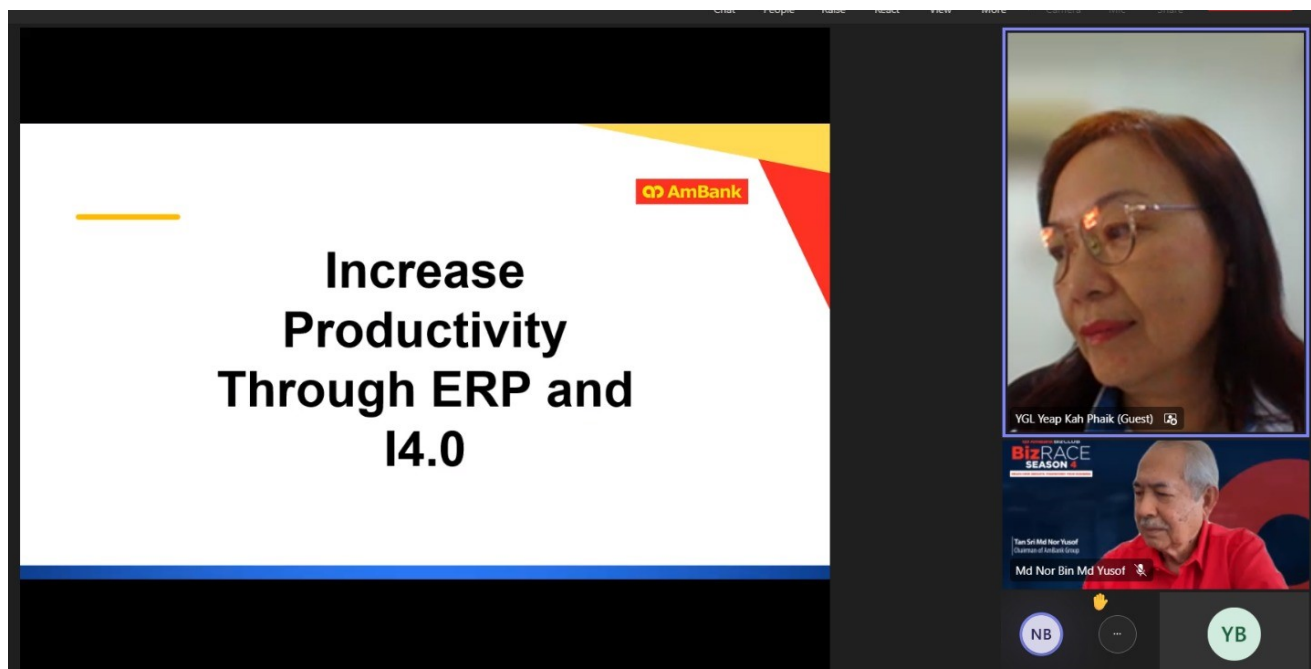

Ms. Yeap Kah Phaik, Project Advisor, delivered a compelling pocket talk on "Process Automation for Smart Factory and Smart Warehouse" at the exhibition hall. She highlighted two critical performance metrics tracked by the manufacturing industry: primary metrics encompassing revenue growth, gross margin, book-to-bill ratio, and EBITA, and secondary metrics including yield, machine downtime, process cycle time, and quality indicators. To bridge the missing link, YGL NERVO ERP integrates people, process, and technology. YGLWORLD Digital Nerve facilitates instantaneous information sharing, enabling timely reactions across the organization. This self-correction process enhances enterprise health, ensuring smooth and efficient operations. YGLWORLD's open architecture seamlessly connects machines, robotics, and IIoT, paving the way for a profitable, competitive, and sustainable enterprise in the global arena.

AmBankBizRACE programme, focusing on assisting manufacturers and related industries in achieving sustainability through the adoption of Industry 4.0. With the theme **“Reach New Heights: Transform Your Business”** AmBank extended the programme this season to small, medium, and large enterprises in Malaysia. Our YGL representative, Ms. Yeap, shared insights on **“Increasing Productivity through ERP and Industry 4.0”** intensifying our efforts to enhance Industry 4.0 knowledge. Emphasizing the importance of implementing 4.0 technology, we aimed to help SMEs in digital transformation and achieve Industry 4.0 goals.

NOVEMBER 2023

YGL extends heartfelt congratulations to the newly elected members of the SAMENTA Northern Region Malaysia Executive Committee for the 2023-2026. YGL Ts Dr Celvin Tan assumes the role of Samenta National Vice President cum Northern Region Deputy Chairman.

The committee, led by Chairman Calvin Kwan, comprises dedicated individuals from various sectors, including SME Development, Digitalization, and Youth. Their roles range from fostering government relations to overseeing manufacturing and fundraising initiatives. This diverse committee, under the guidance of Honorary Advisor, Datuk Seri Abdul Halim Hussain, Executive Advisor Datuk Koay Chiew Guan, are poised to contribute significantly to the region's socio-economic development. YGL wishes them success in their endeavors for the betterment of Northern Malaysia.

The Singapore Manufacturing Federation (SMF), under the leadership of Chairman Mr. Chan Hai Kiang, spearheaded a Penang Learning Journey from November 15 to 17, 2023. Mr. Chan Hai Kiang, heading the Advanced Engineering and Manufacturing Industry Group Council for the term 2021–2024, led a delegation of manufacturers during this insightful trip. The visit included a networking dinner session with SAMENTA members, where YGL company representatives, Mr. Yeap Kong Chean, Ts Dr. Calvin Tan, and Humphrey Ho actively participated. This collaborative event fostered connections and facilitated knowledge exchange among industry leaders, strengthening ties between Singapore and Penang manufacturing sectors.

28th November 2023 - YGL CEO, Mr. Yeap Kong Chean, engaged in a collaborative discussion with YBhg Dato' Haji Abdul Halim bin Hussain (Former Penang EXCO for Trade, Industry & Entrepreneur Development) to enhance trade and IP ownership in Malaysia, particularly in Penang. Emphasizing on YGL's role as a R&D centre based in Penang Malaysia they explored innovative solutions like the Machine and AI integrated Enterprise solution. The aim is to contribute to the advancement of technology within Malaysia and to make Malaysia a conducive incubation centre for the younger generations. This exchange of ideas underscores a shared commitment to elevating Malaysia's economic landscape through cutting-edge technology and strategic partnerships.

Congratulations to our colleague, Cik FIEZA, on achieving her Master's Degree in Commonwealth Executive Master of Business Administration (CeMBA) from Wawasan Open University!

Her hard work has undeniably paid off, and we applaud her remarkable accomplishment. As she steps into new opportunities, we wish Cik FIEZA continued success in her career. May the knowledge gained during her studies pave the way for even greater achievements. Well done, and here's to a bright future filled with success and fulfillment!
