

Inspur × YGL Strategic Collaboration on Smart City & Sustainable Infrastructure

On 12 January 2026, Inspur Intelligent Technology and YGL Convergence Berhad held a strategic meeting to explore collaboration opportunities in Smart Transportation, Smart Agriculture, and Smart Water initiatives in Malaysia.

The session brought together senior leaders from both organisations to align on integrating Inspur's AI, IoT, and intelligent infrastructure platforms with YGL's enterprise systems, analytics, and ESG solutions. The goal is to deliver data-driven, AI-powered solutions that enhance operational efficiency, optimise resource management, and support sustainability outcomes.

Key focus areas include traffic optimisation and fleet intelligence, precision farming and yield enhancement, as well as intelligent water monitoring and leakage detection.

Through this collaboration, Inspur and YGL aim to support governments and enterprises in building smarter, more resilient, and sustainable cities and industries across Malaysia.

YGL x UOB Collaboration Discussion We had a fruitful and engaging discussion between YGL and UOB, exploring potential collaboration opportunities centered on YGL's ESG Middleware Solutions. Both the YGL team and UOB team exchanged insights on how ESG middleware can streamline ESG data collection, automate reporting, and enhance transparency and compliance for organizations. The discussion focused on leveraging technology to support businesses in meeting evolving ESG requirements more efficiently and accurately. We would like to publish on the newsletter. Please re-write the content in 150 words. This session marks a positive step forward in strengthening collaboration between YGL and UOB, with a shared vision to drive digital transformation, sustainability, and smarter ESG reporting for the corporate sector. We look forward to exploring the next steps together and turning these ideas into impactful solutions. □□

Shaping the Economic Future: A Dialogue with Bank Negara Malaysia ☐☐

Dr. Celvin Tan was honoured to attend a distinguished dinner engagement with YBhg. En. Adnan Zaylani Mohamad Zahid, Deputy Governor of Bank Negara Malaysia, during the BNMROPP Meeting at G Hotel Gurney.

The evening provided valuable insights into the latest developments surrounding the Malaysian Ringgit and its broader implications for the nation's business ecosystem. Discussions focused on strategies for managing foreign exchange volatility amid a strengthening Ringgit, optimising cost structures for companies dependent on imported raw materials, and leveraging currency appreciation to drive productivity through strategic capital investments.

The dialogue underscored the importance of proactive financial planning and adaptive business strategies in navigating evolving market conditions. It was a meaningful exchange of perspectives at the highest level, reinforcing our commitment to staying aligned with Malaysia's economic direction while ensuring resilience, competitiveness, and sustainable growth in an increasingly dynamic global landscape.
