YglWORLD

YGL & Universiti Sains Malaysia (USM)

Building the Future Through Industry-Academia Collaboration

Strengthening Industry-Academia Collaboration

YGL proudly welcomed a distinguished delegation from **Universiti Sains Malaysia (USM)** to our Penang headquarters under the **Synergy USM-SME Programme**, marking an important milestone in fostering closer collaboration between industry and academia.

The delegation was led by **Dr. Jeffrey Cheah Sau Seng**, Head of SME Cluster, USM, together with **Ts. Dr. Syazwan Aizat Ismail**, Person-in-Charge of SME Profile. The visit provided an excellent platform for both organisations to exchange ideas on how research, innovation, and enterprise technologies can work together to address real-world industry challenges while accelerating Malaysia's digital transformation agenda.

Driving Innovation Through Strategic Collaboration

Discussions centred on an upcoming Memorandum of Understanding (MoU) that will establish a long-term strategic partnership between YGL and USM. By combining USM's internationally recognised research capabilities with YGL's expertise in enterprise software and Industry 4.0 technologies, both parties aim to bridge the gap between academic research and commercial application.

The collaboration will focus on several key initiatives, including joint research and development (R&D), product innovation, participation in government-funded research grants, technology testing and validation, as well as training and upskilling programmes to nurture future digital talent. Through this partnership, both organisations aspire to transform innovative research into practical solutions that deliver measurable value to manufacturers and businesses.

Leveraging Enterprise Technologies for Industry 4.0

YGL's comprehensive suite of enterprise solutions—including Enterprise Resource Planning (ERP), Manufacturing Execution System (MES), Warehouse Management System (WMS), and ESG Digital Solutions—will serve as practical technology platforms for collaborative research, product development, and industry implementation.

By combining these enterprise technologies with USM's research expertise, the collaboration aims to support smarter manufacturing, operational excellence, sustainable business practices, and greater digital adoption across Malaysian industries.

Looking Ahead

This partnership reflects YGL's continued commitment to building meaningful collaborations that encourage knowledge sharing and support the development of future-ready businesses. We are excited to formalise this collaboration through the official MoU signing at the **USM-SME Innovation Day** on **6 August 2026**, marking the beginning of a strategic partnership that will bring together academia, industry, and innovation to create lasting impact for businesses, researchers, and the wider community.

We look forward to working closely with USM to shape the future of Industry 4.0, digital transformation, and sustainable technological innovation.

YGL Showcases AI & Industry 4.0 Innovations at PDX2026

Showcasing Intelligent Enterprise Solutions

On **15–16 July 2026**, YGL proudly participated as an exhibitor at the **Penang Digitalisation: AI Conference & Exhibition (PDX2026)** held at SPICE Arena, Penang. The two-day event brought together government agencies, technology providers, manufacturers, business leaders, researchers, and innovators to explore the latest developments in Artificial Intelligence (AI), digitalisation, and Industry 4.0.

Demonstrating Intelligent Enterprise Solutions

Throughout the exhibition, visitors explored YGL's integrated technology ecosystem, including AI-Powered ERP, Smart Manufacturing (MES), WMS, ESG Digital Transformation, AI Business Intelligence, Supply Chain Digitalisation, and Intelligent Analytics.

Our team engaged with manufacturers, SMEs, government representatives, and technology professionals, sharing practical insights into how digital technologies can optimise manufacturing operations, enhance supply chain visibility, automate business processes, and support ESG reporting and compliance. The event also provided valuable opportunities to exchange ideas with organisations seeking practical solutions to remain competitive in today's rapidly evolving digital economy.

Welcoming Distinguished Guests

A key highlight of the exhibition was the visit by several distinguished guests to the YGL booth on the second day of the event. We were honoured to welcome representatives from the Ministry of Digital, the Ministry of Science, Technology and Innovation (MOSTI), together with delegates from the Consulate General of the People's Republic of China and the Consulate General of Japan.

The visit provided an excellent opportunity to introduce YGL's latest enterprise innovations and discuss how AI-powered technologies can support Malaysia's digital transformation agenda while strengthening industrial competitiveness and sustainable economic growth.

Continuing the Digital Transformation Journey

Participating in PDX2026 reaffirmed YGL's commitment to empowering organisations with innovative enterprise technologies that drive productivity, sustainability, and long-term business growth. We sincerely thank everyone who visited our booth and look forward to continuing our collaboration with industry partners as we collectively shape the future of AI-driven digital transformation.

Exploring Strategic Collaboration in AI, ESG & Industry 4.0

A Productive Courtesy Visit

On 21 July 2026, YGL was honoured to welcome Mr. E.T. Tan and his colleagues to our corporate headquarters for a courtesy visit and strategic business discussion. The meeting provided an excellent opportunity to exchange ideas and explore future collaboration in digital innovation.

Advancing Digital Innovation

Discussions focused on key areas including AI, Digital Transformation, MES, ESG Digitalisation, and Industry 4.0 technologies. Both parties shared a common vision of leveraging technology and innovation to accelerate digital adoption and support Malaysia's digital economy.

Looking Ahead

The visit concluded with a shared aspiration to foster a strategic partnership that promotes innovation, technology adoption, and sustainable digital transformation across industries.

Strengthening Global Partnerships Through Cross-Border Collaboration

Welcoming International Industry Partners

Also on 21 July 2026, YGL welcomed representatives from a leading Commercial AV and Smart Illumination manufacturing company based in Guangdong, China for a courtesy visit to our corporate office. The meeting reflected YGL's commitment to strengthening international business relationships and expanding regional collaboration.

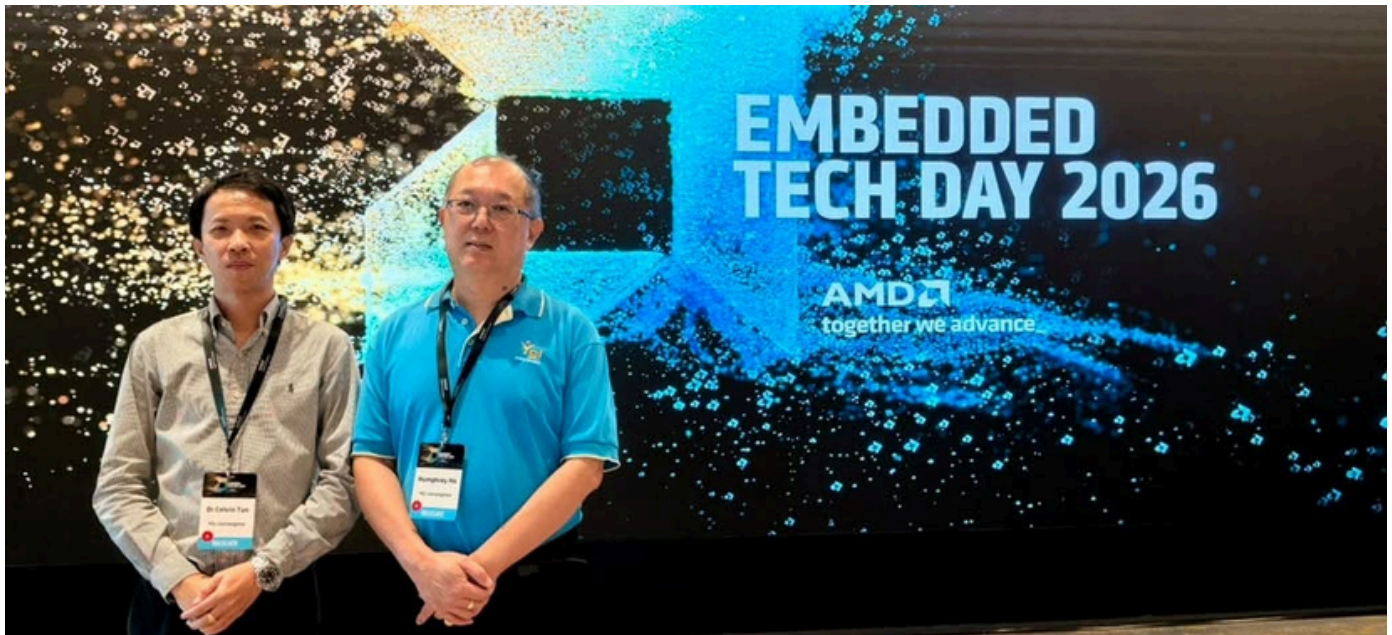

Exploring New Opportunities

Both parties exchanged insights on smart manufacturing, audiovisual technologies, and potential cross-border business opportunities. The discussion highlighted the importance of collaboration, knowledge sharing, and technology exchange in driving innovation and sustainable growth.

Building Lasting Connections

YGL sincerely appreciates the visit and looks forward to developing strong partnerships that create new opportunities for innovation and long-term mutual success.

YGL Explores Emerging Technologies at AMD Embedded Tech Day 2026

Keeping Pace with Technology Innovation

On 22 July 2026, Ts. Dr. Calvin Tan and Mr. Humphrey Ho represented YGL at the AMD Embedded Tech Day 2026, where technology leaders gathered to explore the latest innovations in embedded computing and Artificial Intelligence.

The event showcased cutting-edge developments in AMD x86 Embedded Processors, Edge AI, Industrial Computing, and Intelligent Automation, highlighting technologies that are shaping the future of modern manufacturing and enterprise computing.

Learning from Industry Leaders

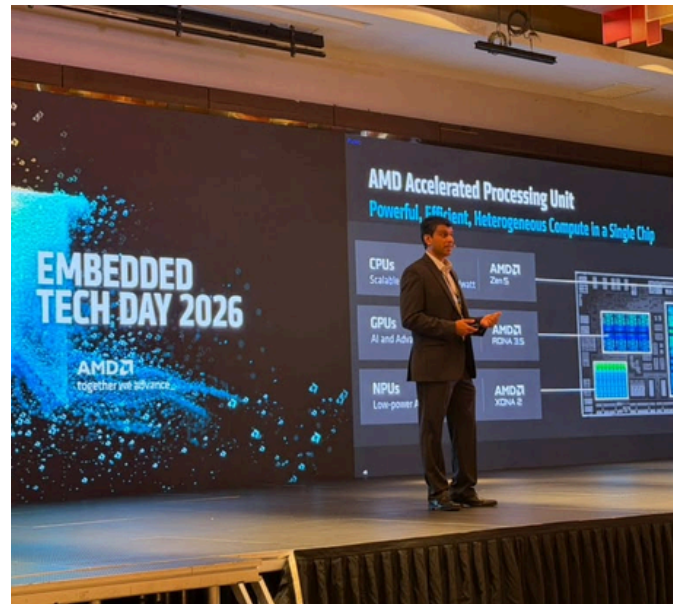

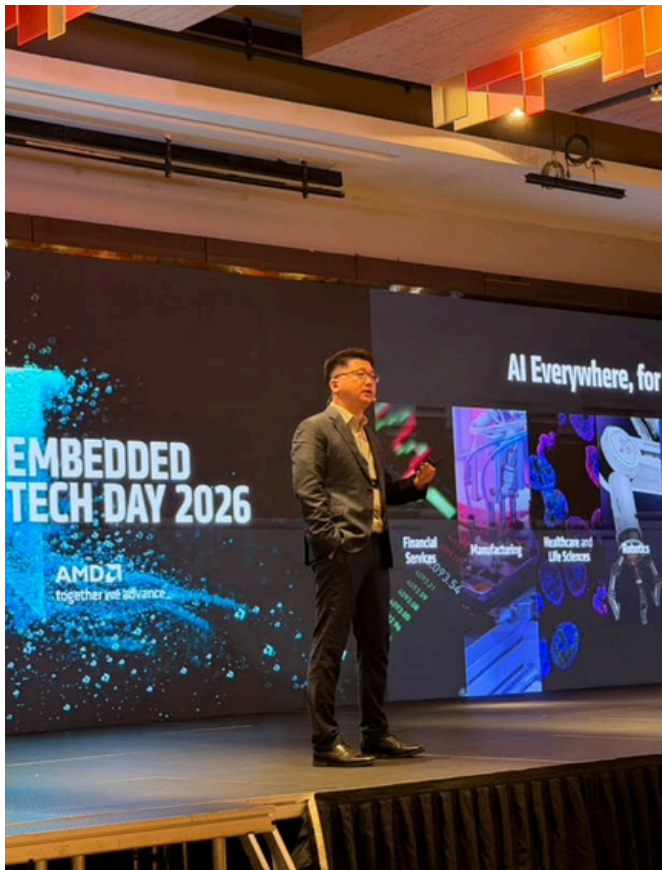

The event provided valuable opportunities to gain deeper insights into emerging AI technologies and their applications across manufacturing, industrial automation, and smart business operations.

As AI continues transforming industries worldwide, YGL remains committed to continuously expanding our knowledge and adopting technologies that create greater value for customers.

Enhancing YGL's Enterprise Solutions

The knowledge gained from AMD Embedded Tech Day will further strengthen YGL's continuous development of AI-powered enterprise solutions, including AI-Powered ERP, Smart Manufacturing, Smart Warehouse Management Systems, ESG Digital Platforms, and AI Business Intelligence.

By staying at the forefront of technological innovation, YGL ensures that our customers benefit from intelligent solutions that improve productivity, enhance operational visibility, and support data-driven decision-making.

Committed to Continuous Innovation

YGL extends our appreciation to AMD and its technology partners for organising an insightful event that encourages innovation, collaboration, and continuous learning. We look forward to leveraging these emerging technologies to deliver even greater value as businesses continue embracing Industry 4.0 and AI-driven transformation.

Strengthening Malaysia–Indonesia Cooperation for SME Digital Transformation

A Meaningful Courtesy Visit

On 28 July 2026, YGL was honoured to welcome the Consulate General of the Republic of Indonesia in Penang, together with representatives from the Small & Medium Enterprises Association Malaysia (SAMENTA), for a courtesy visit and business discussion at our corporate headquarters.

The delegation was hosted by Ts. Dr. Calvin Tan, Mr. Humphrey Ho, and Ms. Farah, providing an excellent platform to strengthen relationships and explore future collaboration between Malaysia and Indonesia.

Empowering SMEs Through Digitalisation

Discussions focused on enhancing economic and technology cooperation, particularly in supporting SMEs through digital transformation, smart manufacturing, enterprise digitalisation, and ESG adoption.

Both countries share a common vision of encouraging innovation, improving productivity, and strengthening regional competitiveness by accelerating digital adoption across businesses of all sizes.

Building a Stronger ASEAN Digital Ecosystem

The meeting highlighted the importance of collaboration between government agencies, industry associations, and technology providers in creating sustainable digital ecosystems that benefit businesses throughout the ASEAN region.

YGL shared our experience in helping organisations modernise operations through integrated enterprise technologies that improve efficiency, increase operational visibility, and support long-term sustainable growth.

Advancing Regional Collaboration

This visit reflects YGL's commitment to building strong regional partnerships that contribute towards ASEAN's digital transformation journey. We look forward to working with our Malaysian and Indonesian partners to drive innovation, strengthen SME competitiveness, and create new opportunities for cross-border collaboration in the years ahead.
