TAXcom AI: Smarter Tax Management with AI

Malaysia's Agentic AI Platform Designed
for Tax Practitioners, Auditors, and
Corporate Tax Teams

The Next Chapter of Malaysian Tax Software

For more than 24 years, TAXcom has supported Malaysian tax practitioners in preparing tax computations, reviewing tax information and managing tax compliance. Now, we are proud to introduce TAXcom AI, the next generation of our tax software, enhanced with Artificial Intelligence (AI) to help tax professionals work smarter, faster and more efficiently.

TAXcom AI combines YGL's established Malaysian tax expertise with AI-powered capabilities to simplify routine tasks, improve work efficiency and support better decision-making. With a refreshed user interface and intelligent features, it aims to make everyday tax work more convenient while building on the familiar TAXcom experience.

From TAXcom to TAXcom AI

TAXcom's journey began in 2002, building on YGL's accounting and software expertise. In 2004, YGL supported LHDN in the national rollout of e-Filing and worked with the Malaysian Institute of Accountants to provide training for tax practitioners nationwide.

Today, TAXcom AI continues this legacy by combining years of local tax knowledge with modern AI technology. Developed and supported by YGL's R&D team in Penang, it is designed with Malaysian tax practices and requirements in mind.

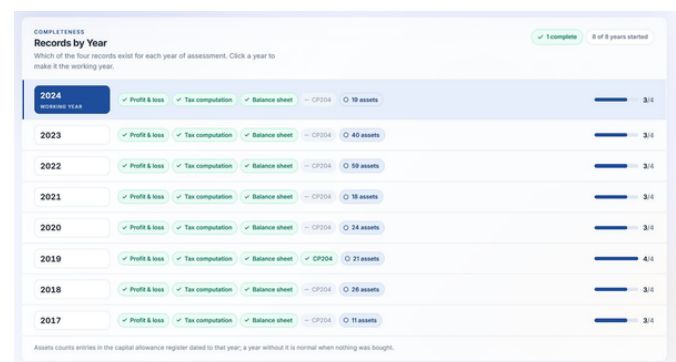

What's New in TAXcom AI?

- **AI-Assisted Tax Computation:** Upload a trial balance to help prepare tax computations, with adjustments linked to relevant provisions of the Income Tax Act 1967 for review.
- **Smart Document Extraction:** Extract key information from invoices, bank statements, dividend vouchers and scanned documents to reduce manual data entry.
- **Intelligent Review & Risk Alerts:** Highlight unusual transactions, potential tax issues and differences from previous tax treatments for further checking.
- **Capital Allowance Mapping:** Suggest suitable tax categories and applicable Initial and Annual Allowance rates based on asset descriptions.
- **AI Tax Assistant:** Ask Malaysian tax-related questions in plain language and access relevant guidance with supporting references.
- **Multi-Year Trend Analysis:** Compare tax adjustments and capital allowance positions across years to identify trends and support better tax planning.
- **Practice Dashboard:** View client filing status, CP204 estimates, important deadlines and billing information in one convenient place.

TAXcom™ AI

Visual Financial Dashboard

Year	Profit & loss	Tax computation	Balance sheet	CP204	Assets	Progress
2024	✓	✓	✓	✓	19 assets	3/4
2023	✓	✓	✓	✓	40 assets	3/4
2022	✓	✓	✓	✓	59 assets	3/4
2021	✓	✓	✓	✓	18 assets	3/4
2020	✓	✓	✓	✓	24 assets	3/4
2019	✓	✓	✓	✓	21 assets	4/4
2018	✓	✓	✓	✓	28 assets	3/4
2017	✓	✓	✓	✓	11 assets	3/4
